When it comes to tools for managing your favorite RSS feeds, you can count on Awasu Professional Edition to be there to keep you up to date. - Available for Windows, Mac, and Linux platforms. - Easy installation process. - A fully customizable tool that allows you to view and organize your favorite websites according to your needs. - Includes a browser for quick access to the web. - A simple search option lets you find all kinds of information, from news to articles to specific words. Fresh Madam 2 Basic idea of the game is simple, as the girls are keeping the game going. You just have to pass the level, you will be able to do this by shooting balloons in the shooting gallery. While the game is played on the site, you have to aim, so you can avoid that the balloons fall down. Your success depends on your skill in shooting the balloons and passing the levels. As you go through the levels, you have to fight the enemy that will appear after you passed each level. However, you can earn more score points by killing the enemy. Your chance to earn more score points increases as you progress in the game. The game is designed to entertain people and to keep them busy, which, in turn, helps to forget about the day and the world outside. Get Fresh - Get Money We are here to help you to make your first steps in the world of digital money. Your goal is to give our BETA testers an early look at the game, before we release it for everyone. After registration on our site, you can check the game on our website. During the BETA program, we will invite up to 500 people to test the game and our goal is to collect as many feedback as possible. To get a chance to take part in our program, we will ask you to fill in your contact information and answer some quick questions about your knowledge of HTML, Flash and Javascript programming skills. After you are in the program, you can watch the program video which is sent to you from our support team. Important! Please be aware that we will not reveal any specific details about the game before the release, so your email and personal data will be saved only to communicate with you about the BETA and your registration. We like to take a look back at the things that have happened this week in the world of social media and mobile. Microsoft latest OS update It seems like Microsoft is taking good care of the

What's New in the?

Effortlessly manage your RSS feeds and Atom feeds with Awasu! Simply add your favorite RSS or Atom feeds and Awasu will help you keep an eye on them by providing you with a well organized and neatly presented feed reader. The way it works:

- Set the browser to auto-refresh and set a period so you never miss an update
- Add as many RSS or Atom feeds as you like and switch between them easily by clicking on the text reading top of the page
- Simply click the "Update" button and your feed reader will automatically update with new entries as soon as they appear on the source site.

Some features:
