

## Spray Booths

☰ Contact Us

Voltas' engineers design, draft, and field review paint spray booths. Spray booths present health hazards which can be mitigated or eliminated through good practice and engineering. By ensuring your booth system is designed and installed to BCBC and NFPA standards we help make sure your system is not only code compliant but safe and practical to operate.

For information about our spray booths services, please email [info@voltasengineering.com](mailto:info@voltasengineering.com) or call us at [604-593-2293](tel:604-593-2293).
