

# How to Register Multiple Employees Under EPF & ESI Quickly?

For businesses in India, providing social security benefits like Employees' Provident Fund (EPF) and Employees' State Insurance (ESI) is a legal requirement. Entrepreneurs and startups hiring employees must complete EPF Registration and ESI registration to ensure compliance with labor laws. However, registering multiple employees can seem like a time-consuming task.

This guide will walk you through the fastest way to complete [Employee PF Registration](#) and register multiple employees under the Employees' Provident Fund Register and ESIC employer login.

## Understanding EPF & ESI Registration for Employees

Before registering multiple employees, it's essential to understand EPF and ESI.

- **EPF Registration:** This scheme is managed by the Employees' Provident Fund Organization (EPFO) and applies to businesses with 20 or more employees. It

helps employees save for retirement, offering employer and employee contributions to a fund.

- **ESI Registration:** This scheme, regulated by the Employees' State Insurance Corporation (ESIC), provides health and medical benefits to employees earning up to ₹21,000 per month. Employers must complete ESIC employer login and ensure all eligible employees are enrolled.

## **Step-by-Step Guide to Register Multiple Employees Under EPF**

### **1. Login to the EPFO Portal**

To begin Employee PF Registration, visit the EPFO Unified Portal and log in using your employer credentials. If you are a new employer, complete your EPF Registration first before adding employees.

### **2. Prepare Employee Details**

Before registering multiple employees, collect the required details:

- Employee Name (As per Aadhaar)
- Date of Birth
- Aadhaar Number
- PAN Number
- Bank Account Details
- Salary Details
- Date of Joining

### **3. Bulk Upload for Employee Registration**

- Go to the "Employees" section and select "Register Bulk Employees."
- Download the Excel format provided by the EPFO.
- Fill in the details for all employees in the file.
- Upload the completed file and submit it for processing.

### **4. Generate Universal Account Numbers (UAN)**

Once uploaded, the EPFO system will generate a **Universal Account Number (UAN)** for each employee. The UAN is essential for accessing EPF benefits.

## **5. Verify & Approve Employee Details**

After UAN generation, verify the details and approve employee PF registration through Digital Signature (DSC) or e-Sign. Once approved, employees are successfully registered in the Employees' Provident Fund Register.

## **Step-by-Step Guide to Register Multiple Employees Under ESI**

### **1. Login to the ESIC Employer Portal**

Visit the ESIC employer login page and enter your credentials. If you are a new employer, complete the ESI registration process first.

### **2. Gather Employee Details**

To register multiple employees, collect the following information:

- Employee Full Name
- Date of Birth
- Gender
- Father's Name
- Aadhaar Number
- Salary Details
- Address & Contact Details
- Nominee Details

### **3. Bulk Upload Employee Data**

- Go to the "Insured Person Registration" section in your ESIC employer login.
- Select "Bulk Registration of Employees."
- Download the bulk upload template and fill in all employee details.
- Upload the completed file and submit for verification.

### **4. Generate Insurance Numbers**

Once the bulk upload is processed, each employee will receive a unique Insurance Number. This number is used to access ESI benefits, including medical treatment and maternity benefits.

## **5. Verify Employee Registration**

Check the status under the "Employee Details" section. If the data is correct, approve and submit it. Employees can now access their benefits through the ESIC search by name feature.

### **How to Ensure a Fast & Error-Free Registration Process?**

#### **1. Keep Employee Documents Ready**

Before starting EPF and ESI Registration, ensure all necessary documents are collected, scanned, and ready for upload.

#### **2. Use Bulk Upload Features**

Rather than adding employees one by one, use the bulk upload option available on both EPFO and [ESIC Employer Login](#) portals.

#### **3. Ensure Aadhaar & PAN are Linked**

For quick approval, make sure employees' Aadhaar and PAN details are correctly linked and verified.

#### **4. Verify Employee Details Before Submission**

Errors in names, dates of birth, or bank details can lead to rejections. Always double-check employee information before final submission.

#### **5. Regularly Update the Employees' Provident Fund Register**

Maintain updated records of newly joined employees to avoid compliance issues during audits.

#### **6. Use ESIC Search by Name for Verification**

If an employee is unsure about their **ESI Registration** status, they can use the **ESIC Search by Name** feature to check their details online.

## **FAQs**

### **1. Can I register employees under EPF and ESI on the same day?**

Yes, if you have all the required details, you can complete EPF registration and ESI registration for multiple employees in a single day using the bulk upload feature.

### **2. What happens if I don't register my employees under EPF and ESI?**

Failure to register employees can lead to penalties, legal action, and loss of government benefits for your business. Compliance is mandatory for companies with 20 or more employees.

### **3. How can employees check if they are registered under ESI?**

Employees can use the ESIC search by name feature on the ESIC portal to check their registration and insurance number.

### **Conclusion**

Registering multiple employees under EPF and ESI doesn't have to be complicated. By using online bulk upload features, keeping documents ready, and ensuring accurate data entry, employers can complete employee PF registration and employees' provident fund register updates quickly. Entrepreneurs and startups should prioritize EPF and ESI registration to ensure compliance and provide security to their workforce.
