

# Elderly Care in Greater Noida

## Dua Old Age Caring Institution

Compassionate Care with Dignity and Comfort

# The Growing Need for Senior Care in Greater Noida

India's elderly population is experiencing unprecedented growth, projected to double by 2050 to over 320 million people. This demographic shift presents both challenges and opportunities for quality care.

Greater Noida, as part of the thriving Delhi NCR region, has emerged as a key hub for eldercare innovation and services, hosting prestigious events like the Eldercare India Expo 2025.

The rise of nuclear families and demanding urban lifestyles has significantly increased the demand for professional, reliable elder care facilities that families can trust.
