

Industrial Cable Glands | Cabex India

Secure, reliable, and certified cable management solutions engineered for industrial excellence and safety compliance across demanding environments.

What Are Industrial Cable Glands?

Essential Cable Protection

Industrial cable glands are precision-engineered mechanical devices that securely terminate and seal electrical cables at their entry points. They provide comprehensive protection against mechanical stress, dust ingress, moisture penetration, and exposure to hazardous environments.

These critical components ensure safe, durable electrical installations across industrial settings, maintaining system integrity and preventing costly failures.

Key Types of Cabex Industrial Cable Glands

A2 Series

Designed for unarmoured and braided cables, suitable for both indoor and outdoor applications with superior environmental sealing capabilities.

BWL & CW Series

Engineered for Single Wire Armour (SWA) and Aluminium Wire Armour (AWA) cables, ensuring robust mechanical retention and reliable electrical continuity.

CX Series

Specialised for Wire Braid, Strip, and Steel Tape Armour cables, providing complete sealing protection and electrical continuity in demanding conditions.

WIP Series

Purpose-built for high voltage power cable termination in dry indoor and outdoor environments, meeting stringent safety requirements.

Why Choose Cabex India Cable Glands?

International Standards

Full conformance to BS EN 62444, IEC 62444, and BS 6121:Part 1:1989 standards, ensuring global quality benchmarks and regulatory compliance.

Superior Protection Ratings

IP66/IP67/IP68 certified ratings providing dustproof and waterproof protection, even under complete submersion and harsh environmental conditions.

Premium Materials

Manufactured from brass, stainless steel, and aluminium for exceptional corrosion resistance, longevity, and performance in extreme conditions.

Hazardous Area Solutions

Explosion-proof and flameproof options specifically designed for hazardous and potentially explosive industrial environments.

Complete Accessory Range

Comprehensive selection including adaptors, reducers, lock nuts, earth tags, and anti-vibration washers for total installation solutions.

Cabex India: Trusted Partner in Industrial Cable Management

Global Presence

ISO certified manufacturer with established operations across Europe, UK, Middle East, and Australia.

Custom Solutions

Tailored cable gland solutions precisely engineered to meet unique client specifications and project requirements.

Quality Commitment

Unwavering dedication to quality assurance, safety compliance, and reliable on-time delivery for every project.

Empowering Indian Industries

Strengthening India's industrial infrastructure with world-class cable gland technology for enhanced electrical safety.
